www.dolphingirltours.com

DolphinGirl Cruises & Eco-Tours will monitor the weather and Space Center reports for the most, up-to-date decisions on the Shuttle take-off. If all conditions look good for a launch (better than 50% chance of a launch), all cancellation policies are enforced. If launch is cancelled before 8am, we will call all guests to notify them of the cancellation. Full price is charged once the boat leaves the dock, regardless of last minute launch cancellations.
